Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

On January 25, 2007, an Office Action was sent to the Applicant rejecting claims 1-21 and 51-58. On July 30, 2007, the Applicant responded by adding new claims 59-77.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-21 and 51-77 rejected under 35 U.S.C. 103(a) as being unpatentable over Jalili (6,088,683) in view of Rogers (7,136,475).

Jalili discloses the invention substantially as claimed (as set forth in the previous Office action); however, Jalili does not specifically disclose receiving a telephone call over the telephone network that seeks to initiate a transaction with a target or the caller ID comprising ESN, MIN, or MEID. Rogers teaches a method for call management comprising receiving a telephone call over the telephone network that seeks to initiate a

transaction with a target (col.1, line 60 to col.2, line 48) and the caller ID may comprise any identification (col.11, line 34 to col.12, line 14). It would have been obvious to one having ordinary skill in the art at the time the invention was made to incorporate the teachings of Rogers within Jalili for the motivation of the user utilizing the network to initiate payment and alternative means of identification.

Response to Arguments

Applicant's arguments with respect to claims 1-21 and 51-77 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lalita M. Hamilton whose telephone number is (571) 272-6743. The examiner can normally be reached on Tuesday-Thursday (6:30-2:30).
